F O U N D A T I O N S

This agreement provides a platform for a stronger Te Taihū, by affirming a strong partnership between Ngā Iwi o Te Taihū (the “Iwi”) and Ngā Kaunihera o Te Taihū (the “Councils”) to enhance the wellbeing of Te Taihū now and into the future.

We recognise that Te Tiriti o Waitangi informs this relationship and offers us a framework from which we can work together. The partners under this agreement are driven by a shared desire to realise the full potential of Te Taihū o Te Waka-a-Māui, to protect and enhance the taonga of Te Taihū and give effect to principles and practices of Te Tiriti o Waitangi within this region.

This agreement recognises the important and unique roles that both Iwi and Councils play in the cultural, social, environmental and economic wellbeing of Te Taihū. It seeks to weave these aspirations together more closely, to strengthen our position as Te Taihū and deliver to our shared aspirations more effectively.

Together Te Taihū is the papanoho of our double-hulled waka, the connecting space between the respective spheres of local government and tangata whenua. Each side of the waka has its own hull and its own mast but the resting space in between forms the papanoho. Accordingly, the papanoho provides stability and form, ensuring that we are in a position to navigate our shared aspirations and challenges. In doing so, we recognise and uphold the mana of the dynamic interplay of decision-making and interconnected relationships that form the leadership and governance of Te Taihū. We recognise and uphold each other’s mana in this partnership.

This agreement builds on the work of many to establish meaningful relationships, strengthen ties and work together to achieve better outcomes for the whole community. In doing so, it is important that the agreement recognises the historical and ongoing impacts of colonisation on tangata whenua and seeks to address the ways in which the rights and voices of tangata whenua have been silenced in the past. It acknowledges the imbalance in power, resources and visibility across the region and seeks to continue on a pathway of restoration and reconciliation, to secure a healthier and stronger long-term partnership for the benefit of all peoples of Te Taihū.

K O T Ā T O U K O T E T A U I H U

W E A R E T E T A U I H U

This agreement is symbolic of what it means to be Te Taihū, the prow of the waka of Māui. It speaks to the heart of our community, our interconnections and commitment to protect, respect and nurture the land, sea, and each other. This extends far beyond recognition of a geographical location and an agreement of partners. It embodies our unique perspective as Te Taihū and the shared responsibility that binds us together. Together, we are Te Taihū. Together, we are stronger.

Our journey together began well before the formation of this agreement and will continue well into the future. Through calm and choppy waters, the tauihu of the waka remains steadfast in its journey, representing resilience and adaptability. So too will this agreement see us through challenges and differences that we will face throughout our journey together.

Just as a tauihu parts waves, so too will this agreement unlock new opportunities, by working together. This agreement is driven not just by obligation but by opportunity. The opportunity to do better by working together more effectively and improving outcomes for Te Taihū. This agreement is a reaffirmation of our commitment to each other and the collective journey we continue to undertake. It puts us in a stronger position as Te Taihū against the backdrop of an ever-changing national and international operating context.

PARTNERSHIP PRINCIPLES

Kotahitanga – *We navigate and paddle together in unison*

A waka relies on the synchronised efforts of all its passengers to propel it forward. Similarly, this agreement relies on the commitment of the partners to work in harmony and a desire to share in decision-making. Together, we are stronger.

This involves including Iwi in key decision-making bodies or processes that affect them whilst respecting their autonomy over their own affairs. Iwi should be engaged early in the decision-making, not just consulted after decisions have been made.

The engagement should be genuine, transparent, and inclusive, reflecting a real desire to incorporate the views, needs, and aspirations of Iwi to strengthen outcomes for all peoples of Te Taihū.

Honotanga – *We recognise each other's autonomy and mandate*

The partnership should be built on mutual respect, acknowledging and upholding the mana of Ngā Iwi o Te Taihū and recognising the Council's responsibilities and mandate as local government. Underpinning the success of this partnership agreement is a sense of mutual respect and recognition of each other's mandate.

To uphold the mana of a partnership, it is important to fully understand and engage in the worldview of that partner. As part of this commitment, the partners are expected to build their capability and capacity to engage effectively. All partners will work together to understand and navigate each other's worldviews and systems.

All partners under this agreement are free to disagree with each other and retain their autonomy as independent partners. This includes upholding statutory responsibilities where applicable.

Tauritetanga – *Ka mahi tahi tātou ki te whakatutuki i te tautika o ngā hua*

PARTNERSHIP PRINCIPLES

Tauritanga – *We work together to achieve equity in outcomes*

Both sides of the waka contribute to the balance and stability required to navigate forward together. Accordingly, all partners have responsibilities under this agreement and should see tangible benefits from the partnership.

Fundamental to this is the recognition of the way in which the rights and interests of tangata whenua have been eroded over time driving disparity and inequity for Māori. This agreement seeks to uphold the rights and interests of tangata whenua including land rights, culture, and social and economic wellbeing. By supporting improved outcomes for tangata whenua, this agreement progresses the wellbeing of the whole community and makes us stronger as a collective.

Kaupapa Mau Tonu – *We are in for the long-term, for our mokopuna*

The partners to this agreement recognise that we are acting in the long-term intergenerational interests of Te Taihū by embedding a partnership agreement that will weather change, disruption and uncertainty.

This agreement affirms our commitment to making decisions that are in the long-term interests of Te Taihū and align with our collective intergenerational vision of Tūpuna Pono (Being Good Ancestors) as laid out in our Te Taihū Intergenerational Strategy (2020). Accordingly, our decision-making will act for the long-term and will support a healthier, more sustainable and resilient region for generations to come.

W H A N O N G A P O N O - N G Ā M Ā T Ā P O N O O T E H O U R U A T A N G A

Tauutuutu – *Ka poipoia te tauutuutu me te painga tahi*

Ko te mātāpono o te tauutuutu me te painga tahi, tētahi pou o tēnei houruatanga. E whakaūngia ana ko te kaha o tō tātou houruatanga ko tōna takitinitanga, ko ngā painga tahi ka puta mai i ā tātou mahi ngātahi hoki. Mā te mahi ngātahi, ka taea e tātou te hanga i te whakakotahitanga nui ake i tērā o te huinga o ōna wāhanga. Mā konei e poipoia te wairua o te haepapa ngātahi, kāore te angitu e tutuki i te noho tahanga engari mā te mahi ngātahi me ngā hua whaihua ngātahi.

E whakaū ana tēnei mātāpono ko te hononga i waenganui i ngā hoa, ehara i te whakawhitinga anga kotahi noa, engari kē ia he kupenga tauutuutu e tautoko ai ia hoa, ā, e whaihua ai ia hoa. Kei roto i tēnei ko te mārāma ko te oranga me te angitu o tētahi hoa e tino honoa ana ki te oranga me te angitu o te katoa.

PARTNERSHIP PRINCIPLES

Tauutuutu – *We foster reciprocity and mutual benefit*

Tauutuutu, or the principle of reciprocity and mutual benefit, is a cornerstone of this partnership. It acknowledges that the strength of our partnership lies in its multiplicity and in the shared benefits that emanate from our collective efforts. By working together, we can create a synergy that is greater than the sum of its parts. This fosters a sense of collective responsibility, where success is not achieved in isolation but through shared efforts and mutually beneficially outcomes.

This principle recognises that the relationship among the partners is not a one-way transaction, but a network of mutual exchange where each partner contributes, and each benefits. This includes the understanding that the wellbeing and success of one partner is intrinsically linked to the wellbeing and success of all.

W A W A T A - H E I T I R O H A N G A

M O E M O E Ā - V I S I O N

Our vision for this agreement is informed by and recognises the Te Taihū Intergenerational Strategy, Tūpuna Pono, which was endorsed by the eight Iwi and the three Councils in 2020. The vision reads as follows:

We are the people of Te Taihū.

Together, we care for the health and wellbeing of our people and our places. We will leave our taonga in a better state than when it was placed in our care, for our children and the generations to come.

Tūpuna Pono – Being Good Ancestors

The strategy also recognises eight intergenerational outcomes which form part of the aspiration we are seeking to deliver against as part of this partnership agreement.

Specifically, the intergenerational outcome of Rangatiratanga, applies to this agreement:

Our decision-making is collaborative, courageous, inclusive, respectful and acts for the long term. We uphold the values and rights of the people and taonga of our region.

NATIONAL AND GLOBAL CONTEXT

Te Tiriti o Waitangi

Te Tiriti o Waitangi, the foundational document of Aotearoa New Zealand, forms the cornerstone of our agreement. It sets out the cultural context for our nation and is the framework through which we understand the relationship between the Crown and Māori. The Councils under this agreement have delegated responsibilities of governance from the Crown. These responsibilities and obligations are affirmed in relevant legislation such as the Local Government Act 2002 and the Resource Management Act 1991.

The relationship between Iwi and the Councils recognises Te Tiriti o Waitangi and seeks to act in accordance with the evolving principles and practices that give effect to Te Tiriti in our contemporary context. By prioritising a Te Tiriti centric approach, this agreement promotes the genuine participation of Iwi in the strategic direction of Te Taihū.

Te Tau Ihu Settlement Acts 2014

We acknowledge the following settlements as foundational to this agreement:

- Ngāti Apa ki te Rā Tō, Ngāti Kūia, and Rangitāne o Wairau Claims Settlement Act 2014
- Ngāti Kōata, Ngāti Rārua, Ngāti Tama ki Te Tau Ihu, and Te Ātiawa o Te Waka-a-Māui Claims Settlement Act 2014
- Ngāti Toa Rangatira Claims Settlement Act 2014

These settlements acknowledge the past injustices and seek to provide redress, while also laying a foundation for future relationships based on partnership, mutual respect, and shared aspirations for the future. By situating our partnership within the context of these Settlement Acts, we reaffirm our commitment to a partnership that is informed by an understanding and recognition of the past.

These acts affirm the mana of the Iwi and provide a foundation for their ongoing relationships with the Crown and other entities. They serve as a reminder of our collective responsibility to honour past agreements and commitments, support Iwi in their journey towards social, cultural, and economic revitalisation, and uphold Te Tiriti o Waitangi.

E herea ana ngā Kaunihera e te Ture ki te pupuru me te whakapai ake i ngā ara wātea mō ngā iwi Māori ki te whai wāhi ki ngā tukanga whakatau take a te kāwanatanga ā-rohe. NATIONAL AND GLOBAL CONTEXT

Local Government Act 2002

The LGA provides the purpose for local government which is described as:

- To enable democratic local decision-making and action by, and on behalf of, communities and
- To promote the social, economic, environmental and cultural well-being of communities in the present and for the future.

The Act requires councils to maintain and improve opportunities for Māori to contribute to local government decision-making processes. The Act also provides for councils to make arrangements to provide opportunities for Māori to contribute to the decision-making processes of the council, and consider ways in which they may foster the development of Māori capacity to contribute to these processes.

Resource Management Act 1991 (RMA)

The Resource Management Act 1991 requires all persons exercising functions and powers under it to take into account the principles of the Treaty. This includes local councils in their role as planning authorities and consent bodies. Section 8 of the RMA is explicit about this requirement. It also provides for Māori participation in resource management, recognition of kaitiakitanga (guardianship), and the importance of Māori culture and traditions.

United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP)

The United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP) supplements and bolsters the foundations of our agreement at an international level. This seminal document, ratified by nations worldwide including New Zealand, recognises and reaffirms the inherent rights of indigenous peoples.

Embracing the standards of Te Tiriti o Waitangi and UNDRIP within our agreement leads to the creation of an evidence-based, culturally responsive approach in our work. By acknowledging the indigenous rights and values that these two important documents represent, we can cultivate a partnership that respects, honours, and integrates the unique indigenous knowledge, perspectives, and systems of Iwi.

Implementation Pathways

Capacity to Engage

-

Councils should support the capacity and capability building of Iwi to enable effective participation in the partnership. This builds on a strong existing foundation of providing governance support and resourcing engagement to improve the ability of Iwi to positively contribute to Council decision-making and governance.

Annual Partnership Wānanga

-

We commit to regular dialogues and annual wānanga, reaffirming our shared principles and evaluating our progress. These dialogues will provide opportunities for reflection, learning, and strengthening of our partnership and collective efforts.

Partners in this agreement will establish a set of priority outcomes each year that align with this agreement. These outcomes will be identified before Matariki each year through wānanga.

While centred on the shared values and tikanga set out in this agreement, these documents will highlight specific outcomes and shared priorities.

Action Plan

-

The Action Plan will ensure our shared objectives are met not only in principle but in practice. The Action Plan should be seen as a living document with reviews and realignment over time. This is an iterative and shared document that will continue to evolve as the partnership grows over time.

Review Mechanism

-

Review of this agreement will occur on an annual basis, in conjunction with the annual partnership wānanga, aligning with the Maramataka by holding it around Matariki to pause, reflect and plan for the year ahead.

The intent is that this agreement will be enduring but may from time to time be subject to amendments as our operating context, challenges and aspirations evolve and the partnership matures.

Strategic Collaboration

-

We will engage in shared governance forums that respect and uphold the mana of all partners involved. This may include shared decision-making forums to provide for dialogue between partners and co-design of significant policies and practices, ensuring that Māori perspectives are integral to the process.

Where possible and practical, these forums will establish Te Taihū priorities as a whole, which can then be filtered down and delivered on by each of the partners in the agreement.
