

TAKAKA FRESHWATER AND LAND ADVISORY GROUP

AGENDA

9.30AM – 3.00PM / FRIDAY 21 NOVEMBER 2014 / TAKAKA FIRE STATION

Purpose of meeting: Agree values
Increase understanding about attributes and they are chosen for each management objective, and for Water Wheel modelling
Determine high priority requirements to meet values

9.30 AM **Mihi/Welcome**

- Overview of what we have done to date & purpose of this meeting
- Update on Conservation Order application (*MAB*)
- Update from TDC Environment & Planning Committee (*Mik & Martine*)

9.45 **Values Summary (includes management objectives & characteristics)**

Presentation on any significant changes to the draft document based on group feedback – common themes, differing perspectives etc (*Lisa McGlinchey, 20 mins*)

10.05 **Values Summary - Resolving any areas of divergent views/confusion etc**

Q& A session and group discussion

10.30 **Next steps – choosing attributes**

What the group needs to do next – planning requirements & water wheel (*MAB*)

10.40 **Kapu Ti/Break**

11.00 **Attributes 101**

Presentation – Trevor James (45 mins)

- What are attributes? How are they used?
- Individual attributes used for freshwater – what they are & what they tell us

Criteria for choosing attributes:

- Science/monitoring perspective (*5 mins TJ/JT*)
- plan perspective (*5 mins MAB*)
- Waterwheel perspective (*5 mins AF*)

TAKAKA FRESHWATER AND LAND ADVISORY GROUP
