

PART I: INTRODUCTORY

INTRODUCTION

Part I introduces the Tasman Resource Management Plan.

Chapter 1 explains the purpose, scope, structure and effect of the Plan, and describes resource management methods used in the Plan, restrictions on resource use, types of resource consent, the application and arrangement of rules in the Plan, and how to use the Plan.

Chapter 2 defines the meaning of various words or expressions used in the Plan.

Chapter 3 describes resource management issues that cross the District boundary and in which other local authorities have interests.

Chapter 4 describes the Plan monitoring and review procedures to be applied.
