

# REPORT

**TO:** Motueka Community Board  
**FROM:** Chairperson C Satherley  
**REFERENCE:** E859  
**DATE:** 12<sup>th</sup> May 2005  
**SUBJECT:** MONTHLY REPORT

---

## PRE-AMALGAMATION LOANS

Attached to this report is a copy of the Corporate Services Manager's report regarding the above loans. This report resulted in the abolition of pre-amalgamation loan rates for wastewater and stormwater being included in the Draft Annual Plan.

I believe that the Board needs to consider whether a submission should be made on this issue bearing in mind:

- TDC was formed in 1989 and 16 years later these two loans are still being treated as Richmond and Waimea issues which is contrary to the ideals of amalgamation.
- Since 1989 major works have been carried out on wastewater and stormwater in other areas of the District and these costs have been met by the appropriate "club".

I would be interested in the Board's thoughts on this issue and whether a submission should be made to the Draft Annual Plan either for or against the proposal.

## ANNUAL PLAN MEETING

The public meeting was held on Wednesday, 11 May 2005. This was well attended and some good feedback/information was received. The Motueka Community Board met on 12 May 2005 to formalise its final submission to the 2005/06 Draft Annual Plan.

## Recommendation

That the Motueka Community Board approves its final submission, dated 16 May 2005, to the 2005/06 Draft Annual Plan.
