Changes	Fruit & Nut Trees?	Removal Of Trees	Comments	Suggestions
Yes	Yes	No	As long as they are looked after pruned and sprayed when required.	Doesn't want existing trees removed. Wants to retain all the space on the grass area. A proper footpath along the river to the bridge.
No	No	No	Fearful that outsiders will become aware of free fruit and the reserve will become unsafe for children.	
Yes	No	No	Focus of area should be recreational. Problem of rotten fruit, fair distribution of produce. People should plant in their own properties. Would like a meeting.	
No	No	No	Recreational area not for cropping. Neighbouring orchardists may not want unsprayed crops next door. Free loaders appearing – concerns with security. All local residents have sufficient space for domestic cropping. Proposal suggests personal agenda rather than desire to enhance recreational value of reserve. Against removal of desirable species except for arboricultural activity to maintain tree health.	Suggest ground surface be returned to original state. Path needs maintenance. A seat under Linden trees next to access. Improve access from Linden Place.
No	No	No	The reserve is beautiful as it is.	
No	No	maybe	Concerned that existing grassed area is not impinged upon. Feels the survey is a fait accompli	Childrens play equipment would be a better option.

			<p>Questions can not be answered yes or no but need to be qualified.</p> <p>Shade is an important consideration.</p> <p>If they are growing trees for food do they wish dogs to be banned?</p> <p>More consideration needs to be given to long term whole community use not just vocal cliques.</p>
