

# STAFF REPORT

**TO:** Community Services Committee  
**FROM:** Reserves Manager  
**REFERENCE:** C752  
**DATE:** 10 September 2008  
**SUBJECT:** Reserve Manager's Report

---

The following is an update on capital projects and items of interest.

## MOTUEKA

Site	Projects for 2007/08	Timeframe
Decks Reserve	Historical Plaques Tea House	Information to go on plaques being finalised. Prices being collected.
Little Kaiteriteri / Stephens Bay Reserves	Coast care plantings Revegetation work	The planting bee was held on the 6 <sup>th</sup> September and was well supported by the local communities.
Linden Place Reserve	Survey/Development	The results of the development survey sent to residents have been collated. Residents generally supported the planting of nut trees on the reserve but not the removal of trees specifically to plant fruit or nut trees. It has been agreed to plant four nut trees and four Feijoa trees in the reserve, remove the pampas, shift the flax, install more picnic tables, start a Revegetation programme along the stream and remove one tree for arboricultural reasons.
Torrent Bay	Coast care planting	1500 spinifex plants are waiting to be planted on the beach with the local community once the sand replenishment project has been completed.
